Mrs Hoogie's F-1

The Bentleigh High school band was fantastic, we learnt about the instruments that made up the band and we also had the privilege of listening to some wonderful compositions.

We really enjoyed our visit from the Lion Tamers Team. We learnt about core body strength and discussed some key values that help to build strong identities. We are now practicing some of the Lion Tamers activities as brain breaks in class time. Part of these physical sessions includes team-building activities that challenge the students’ problem solving skills and at times their social and emotional skills! From these sessions we are able to teach that resilience, communication and working cooperatively are essential elements in achieving group success.

We have also been fortunate enough to have Angie the Artist perform her Koo Wee Kapers puppet show. This show featured native Australian animals, wonderful songs and clever lyrics. It was really inspiring to see Angie perform and I know the students are very excited to be adding the finishing touches to their own puppets in the coming weeks.
